

AILEEN LYNN BEQUEST FUND - 2007

John HP Robertson

Title of Project: Analysis of in vivo models of early colorectal metastasis focussing closely on the role of integrins in extravasation

My project has now been completed. I achieved my MD - Awarded 28/02/08 by UCL - graduated 5/9/08.

I have also achieved 3 publications from my MD thesis and am in the process of revising a fourth.

Many thanks to the College for their support

See below my publications from my MD thesis, I have acknowledged the College in the final paper - submitted after receiving the award.

John HP Robertson, Shi Yu Yang, Kevin M Sales, Alexander M Seifalian and Marc C Winslet
In Vivo Models for Early Development of Colorectal Liver Metastasis
International Journal of Experimental Pathology 2008 Feb;89(1):1-12.

John HP Robertson, Arthur M. Iga, Kevin M Sales, Alexander M Seifalian and Marc C Winslet
Integrins: A method of early intervention in the treatment of colorectal liver metastases.
Current Pharmacological Design 2008;14(3):296-305.

John HP Robertson, ARTHUR M Iga, Shi Yu Yang, Alexander M Seifalian and Marc C Winslet
A Biologically Accurate *In Vivo* Model for Early Development of Colorectal Liver Metastasis
International Journal Of Experimental Pathology accepted and *In Press*
